

Migrating your EnvisionConnect to Accela's Environmental Health has never been easier

Your organization needs a modern application easily managed online.

SEP Technology Consulting is an Accela Gold Certified Professional Services Partner with experience and customized tools in migrating clients onto the Accela Environmental Health platform. SEP Tech has a dedicated offering that makes the process simple and seamless for you migrating your program elements and all your history efficiently. We have assisted many county and city customers from Decade/EnvisionConnect to Accela Environmental Health and are currently working with multiple counties in California and across the United States.

Accela's Environmental Health provides your organization with improved productivity, enhanced service delivery and better protection with the following features:
